

PayneGroup Nominated for Two 2017 ILTA Distinguished Peer Awards: Innovative Consultant of the Year and Innovative Solution Provider of the Year

SEATTLE, WA – June 6, 2017. PayneGroup announced that they have been nominated and shortlisted for two 2017 Distinguished Peer Awards.

Annette Sanders is shortlisted in the ILTA 2017 Innovative Consultant of the Year Award category for her development of Migration Roundtable and new professional service offerings surrounding deployment of Office 2016. The second nomination and shortlist is for Redact Assistant Cloud (for Office 365). Janet Del Aguila and Tara Byers manage the department that created the Redact Assistant for documents and spreadsheets. This product is featured on the Microsoft Website in a better together campaign: <http://betterwith.office.com/payne-group-redact-assistant-for-spreadsheets-office-add-in>.

“We are beyond thrilled to be recognized by ILTA for these efforts,” says Donna Payne, CEO and founder of PayneGroup (and previous winner of an ILTA Thought Leader of the Year award). “Redact Assistant for cloud was a big effort that required us to rethink and re-architect how our applications are developed. And the outstanding work by Annette Sanders in redesigning and creating a Migration Roundtable and Master Series for Office 2016 is one of the most popular offerings at PayneGroup. It gives the clients a strong advantage in planning and preparing for their upgrades.”

About ILTA

ILTA is a volunteer-led, staff-managed association with a focus on premiership. We aim to educate you and connect you with your peers to support your work in the legal sector. While we have a strong focus on technology, our offerings support professionals of every stripe in law firms and corporate/government legal operations.

About PayneGroup

PayneGroup is a leading provider of security software including the Outlook Send Assistant, which prevents Reply to All, BCC and other potential accidental disclosures, Redact Assistant, which is a redaction tool for Word and Excel files, and Metadata Assistant, the first metadata removal software on the market. The Workflow product division includes Forms and Numbering Assistants, which aid in the creation and formatting of documents. PayneGroup provides extensive professional services, ranging from software migration consulting, training and help desk services to project management and courseware development. PayneGroup has also authored 13 books on Microsoft Office. For more information about PayneGroup, see www.thepaynegroup.com or follow PayneGroup on twitter at www.twitter.com/paynegroup.
