

PayneGroup Products Support Microsoft Office Professional 2016

SEATTLE, WA – Sept. 22, 2015. PayneGroup announces that all their software applications are compatible with Microsoft Office Professional 2016 and Windows 10.

Says Tara Byers, President of Development for PayneGroup, “Staying up-to-date with Microsoft product release cycles is important to us. When a client wants to go to the next version of Microsoft Office, we want to be there with a well-tested, optimized companion product.”

PayneGroup’s product suite includes Metadata Assistant, Forms Assistant, Numbering Assistant, Outlook Send Assistant, and the latest product, Redact Assistant.

In addition to professional services already offered, PayneGroup is now offering an Office 2016 Migration Roundtable service where a specialist goes onsite and provides a two-day installation and configuration option settings primer. PayneGroup is also offering an Office 2016 version of their popular Master Series high-end training.

About PayneGroup

PayneGroup is a leading provider of secure communication software including the Outlook Send Assistant, which prevents Reply to All, Bcc and other potential accidental disclosures, Redact Assistant, which is a redaction tool for Word and Excel files, and Metadata Assistant, the first metadata removal software on the market. The Workflow product division includes Forms and Numbering Assistants, which aid in the creation and formatting of documents. PayneGroup provides extensive professional services, ranging from software migration consulting, training and help desk services to project management and courseware development. PayneGroup has also authored 13 books on Microsoft Office, including our latest book, *Word 2013 for Law Firms*.
