

FOR IMMEDIATE RELEASE
PAYNEGROUP ANNOUNCES NEW CORPORATE GIVING EFFORT

SEATTLE, Washington (May 9, 2014) — PayneGroup, a long-time leader in security and workflow products, as well technical training and software migration services is pleased to announce their first corporate and social responsibility giving effort.

Through the end of June, PayneGroup will donate 5% revenue from all enterprise licenses sold to help charities in need. The first recipient is the Greater Nashville YWCA which has an immediate need for a security fence to protect the resident women and children. This and other YWCA shelters provide housing for abused mothers and children, and for those with no place to go. Pat Shea, the President and CEO of the Greater Nashville YWCA, recently shared a story and video with PayneGroup CEO, Donna Payne which illustrates why funding this project is the right thing to do.

The video, titled High Alert at the Weaver Domestic Violence Center, can be seen on YouTube at <http://youtu.be/MNJ2d7UhxK4>.

The YWCA of Nashville is trying to raise an additional \$75,000 to purchase an impenetrable “wrought iron” fence which is really needed for their clients to be completely safe. To date they have raised approximately \$75,000, which would only allow them to purchase a “chain link” fence that COULD BE scaled, cut, or crawled under. The women and children deserve better and that's where PayneGroup hopes to help with this new initiative.

As a global company, PayneGroup believes in the importance of giving back, and making a difference when possible. We commit to helping the YWCA and other organizations. If you are considering an enterprise purchase, we urge you to do so today. By doing so, you will get a quality product while helping communities in need.
