Tara Byers Moves into the President of Development Role at PayneGroup

SEATTLE, WA--(August 12, 2014) - PayneGroup announced today that Tara Byers has been appointed President of Development. In this new capacity, she will oversee new product and existing product development for both the Collaboration and Workflow groups, as well Security Product Division.

Byers joined PayneGroup more than 17 years ago. She started as a trainer, then rose through the ranks as Training Manager, Vice President of Development for Collaboration and Workflow, and now as President of Development. Prior to joining PayneGroup, Byers accumulated years' of experience in educational services, technology and retail industries,

Says Donna Payne, CEO of PayneGroup, "Through hard work and perseverance, Tara has earned her seat at the table. She has been actively involved in shaping every product that we've produced, and she will continue to do this to an even greater extend in this new role. I'm excited to see what she will bring to fruition with our integration with PayneGroup products, Office 365 and emerging technologies."

On her new appointment, Byers commented: "I look forward to working with the product development teams across PayneGroup to provide more consistency and to implement customer feedback into the products. It's an exciting time at the company where we are launching not only a rebranding initiative, but also new products, customer service tools, and things that have been on our wish list for some time. I look forward to the challenge that this new role will bring, and the opportunity to meet with more clients to learn how we can better meet their needs."
